

Principal's Message

" The best preparation for tomorrow is doing your best today. "

It is with great pleasure that I welcome you to our school website. You will feel much honored to be part of this academically rich esteemed institution.

The way we advance in our society has been greatly influenced by people who have new ideas. Education is not merely about what we have learned through the past. New ways of life, creation and time makes it an absolute necessity to have the pursuit for knowledge. It is important to make our students and peers recognize that the future that they are entering is an extension of life up until now.

A common question that educators and parents alike have, is how and what to teach children. Before one decides this, however, I believe it is important to know what your goals and purposes are. It is important to know why the children are being educated. It is my firm belief that in a person's educational experience, they should be prepared for more than just their career. We should mould students who can reason and think critically and not only in boundaries that are set.

At SICA, we provide support to our students in recognizing the talent and confidence required to discover their type of personality and thought, with the help of hard-working individuals, in the hope of achieving the everlasting spirit in each and everyone. The quest for knowledge drives them to be self-motivated and emotionally competent enough to accept failures, and empowers them with skills to strive for success.

While we look forward to the future, let us remember:

“Success comes to those who work hard and stays with those, who don’t rest on the laurels of the past.”

Thank you and Best Wishes.

Dr. Gajendra Singh Patel

Principal, SICA School, Scheme No.78
